ELKS' BALL PLAYERS PRACTICE Omaha Lodge's Nine Getting Into Shape to Meet Council Bluffs Club.

The Omaha Elks who will play ball July 4 at the Western league grounds with the Council Bluffs Elks are practicing daily on the grounds of the Omaha Field club and are rapidly getting in condition to do credit to themselves and the lodge they represent. Henry T. Clarke, Jr., Dr. Fred Rustin, Lysle Abbot and Frank Crawford are well known ball players with collegiate and Omaha reputations, and they will give a good account of themselves next Friday afternoon. The Council Bluffs Elks report they are also in daily practice and they are determined to win the game if it is possible for them to do so. They defeated the Omaha Elks last year. W. A. Bourke, owner of the Western league Omaha team, has loaned the necessary uniforms for the Omaha Elks' nine. Game will be called at 2:30 o'clock. Tickets can be had only at the grounds. It is expected that there will be a very large attendance.

Mayflower to Be the Ocean Home of the Buler of the Nation.

REFITTED IN MOST LUXURIOUS STYLE

Boat Once Property of Mrs. Goelet, but is Sold to United States for Use During the Spanish War.

NEW YORK, June 30 .- The Mayflower, the official yacht of the United States and ocean home of President Roosevelt, lies in the Brooklyn navy yard. In its new function, after undergoing alterations that cost \$50,-000, it is ready for sea as one of the most luxuriously appointed vessels affont. The yacht was commissioned Saturday, but the date of sailing from the navy yard has not

the navy yard are proud, as they feel it will be a fitting residence for the chief executive of the nation when social or naval regulations call on him to fly his flag afloat. In designing such a palace for use by the president the United States departs somewhat from the old lines of Jefferson simplicity and takes its place with the other world powers in the matter of naval luxury. Neither the Hohenzollern nor any of the other royal yachts has etate rooms and salcons more beautiful or costly than those

of the president's yacht. Yacht is Lavishly Furnished.

In the four weeks just passed the Mayflower has been refitted and refurnished completely from stem to stern. The president's quarters are situated aft, on the main deck, and include six state rooms for the exclusive use of himself, Mrs. Roosevelt and their children. The two larger of these state rooms have been very lavishly furnished. Special attention has been given to the decoration of the bulkheads and the paneling, which are covered with expensive silk in many colors.

The smoking room occupies the after portion of the spardeck and is finished in teak, with a floor of fancy woods, inlaid in mosaics, and waxed. Many cane chairs and sofas add to the comfort to be had in this

Behind the officers' quarters, below the main deck, is the president's dining salcon. It extends the width of the ship and is furnished in white and gold, Louis XIV style. Running aft is the companionway to the president's reception room. Some of the panels along this companionway are made of Valenciennes lace painted over with a silver paint to represent steel. In the reception room the white and gold effect is still carried, out.

Leading down to the berth deck aft is magnificent mahogany stairway that gives entrance to the president's private suite. There are two large state rooms, four smaller ones and two bath rooms. On the port side, just outside the president's room, is his private bath. The tub is cut from a solid block of fine marble.

Once Belonged to Mrs. Goelet. Resides the arrangements made for the comfort of the president and his family in the living and sleeping spartments aboard extensive plans were made to give him the benefits of the most improved culinary and sanitary contrivances. There is a large refrigerating plant in the forward part of the vessel near the dining saloon.

Nothing has been left undone to make the

Mayflower a fit habitation for the ruler of a wealthy nation. Before the Spanish-American war the Mayflower was the property of Mrs. Goelet. It had been built for her husband on the Clyde at a cost of \$800,000. When Mr. Goelet died his widow at one time templated selling the yacht to the king of the Belgians. At the outbreak of the war the Mayflower was bought as a

torpedo boat destroyer at a cost of \$450,-000. The vessel is 321 feet over all, 275 feet on the water line. When Governor Allen was sent to Porto Rico he was given the Mayflower, after it had been outfitted at considerable expense, as his official yacht. The Mayflower, which now replaces the Dolphin, is under command of Lieutenant Commander Albert

Oregon of Alaska Line Springs Leak and Has Eight Feet of

Water in Hold.

SEATTLE, Wash., June 30 .- The steamer Oregon is ashore at Dutch harbor with eight feet of water in its hold. On the voyage north the Oregon began leaking badly before it had passed Vancouver island, and it was found necessary to keep the pumps going constantly to keep the vessel afloat. It reached Nome,

however, with two feet of water in its hold and the machinery very badly out of repair. As soon as the passengers and cargo were landed Captain Seeley decided that he could make St. Michael, where the vessel could be safely beached and repaired After leaving Nome the rudder post gave out and the steamer refused to answer

its helm Fortunately the weather was good and Captain Seeley was able to make temporary repairs. As the leak had not increased and did not appear to be dangerous he decided that he could reach Seattle in safety and so did not stop at St. Michael. With the pumps going continually he found it impossible to keep the water down, and as it was gaining at a dangerous rate he was compelled to put into Dutch harbor

and beach the vessel. The Oregon had some southbound passengers aboard, but the number is not It is believed the vessel can be

The Fremont, Elkhorn & Missouri Valley Railroad is a railroad 1,362.84 miles in length, of which 983.65 are in the State of Nebraska. It is not a trunk line, but one that depends upon the growth of the country immediately tributary to it for its business. The owners of this rathroad hope that the pros-

perity of the country through which it runs will in time make it prosperous. In 1900 this railroad received in gross earnings.....\$4,121,457.93 They paid for operating expenses 2,689,642.25

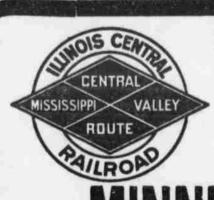

Net earnings 1,431,815.67 This amount makes a net earning of \$1,050.53 per mile for the system, and they reported \$1,110.42 as such net earnings to the Auditor of State in Nebraska, which, it will be seen, gave this State credit for the increased amount received from business which originated on the branches in other States. Out of the \$1,431,845.67 they paid \$1,007,851.09 for interest on bonds outstanding, and \$181,599.74 was paid for taxes, which latter amount was equal to 12 7-10 per cent of their net earnings.

No dividends were paid by this company, and during the years 1895, 1896 and 1897 there was a large deficit in the revenues.

In case the taxes on this road were paid on the Wisconsin basis of taxation, it would have been \$120.02 per mile, instead of \$152.95 in the State of Nebraska. To make a fair comparison with this railroad it is necessary to select roads that do a similar business in other States, and the following table gives this result:

| State | Railroad | Milen | Net Earning Per Mile | Total Tax Paid | Tax Per Mile | Per Cent. of Taxes to Net Earnings |

In looking at offices in different buildings, the greatest praise the owner or rental agent can give an office is to say that it is "as good as an office in The Pas Building." It may be in some respects, but it can not be in every respect. The Bee Building is one of the only two absolutely fireproof office buildings in Omaha. The Bee Building is the only building having all night and all day Sunday

elevator service. The Bee Building furnishes electric light and water without additional cost. The Bee Building is kept clean, not some of the time, but all of the Keep these points in mind when looking for an office, and you will take one of
